

**New!**  
**Electric Ceramic Knife Sharpener**

**Product Style#/Name:** DS-50 Electric Ceramic Knife Sharpener

**Color Availability:** Black

**Description:** Battery powered, this electric ceramic knife sharpener is the perfect solution for at-home re-sharpening and refreshing of your ceramic kitchen knives. Ideal for Kyocera Ceramic knives, the diamond grinding stone can take up to .5mm nicks off a blade, achieving a 35-degree angle. A convenient knife guide slot and assist roller allow for a user-friendly and controlled sharpening of the blade. For left or right handed use. Not recommended for metal knives. It's easy to clean since cover and grinding stone unit is separate. A replacement diamond grinding stone is available for future use.\*

**Features:**

- **Diamond Grinding Stone #600 Grade:** Electric powered diamond grinding stone can take up to .5mm off blade – A Replacement diamond grinding stone is available for future use
- **Knife Guide Slot:** To keep knife at a fixed angle, very user-friendly and safe
- **Assist Roller:** To prevent too much sharpening and controls even pressure
- **Safety Cover:** Grinding and dust are completely contained within cover
- **Indicator Light:** Signals that unit is on and working
- **Battery Powered:** 4 AA batteries not included
