

## Pronto flip crank mill

### ceramic gear

Ceramic mechanisms are stronger than steel and corrosion resistant. Ceramic is the most versatile gear with the ability to grind pepper, salt, herbs and spices.

### to fill

1. Slide open door on top of mill.
2. Pour peppercorns into mill.
3. Close door.

### adjusting the grind

Turn central knob at top of mill to desired grind size: fine, medium or coarse.

### dual mode

- Standard Mode:  
Mill can be used with crank handle folded in like a traditional mill.
- Crank Mode:  
Flip crank handle open and turn using knob on end of handle for faster output.

### to clean

Wipe body of mill with a soft damp cloth. Never immerse mills in water or place in dishwasher.
