

Removing the core and seeds from tomatoes, bell peppers, jalapeños and other small peppers can be difficult, messy and wasteful. With the Progressive Pepper Corer Duo it's as easy as ***Insert, Twist and Pull!*** For stuffed jalapeños, cut the stem off the pepper before coring.

- The Pepper Corer's pointed tips easily pierce peppers, and the tapered edges quickly cut through skin and pith and remove seeds.
- Large size (1.75" opening) is perfect for bell peppers and tomatoes.
- Small size (0.75" opening) is ideal for jalapeños and other small chili peppers.
- Perfect for making stuffed peppers, stir fry or salads.
- Durable Nylon material is sharp yet safe to use.
