

ice cream POPS

Make a cool treat even cooler

Four easy steps to your favorite frozen fantasy:

1. Choose your ingredients
- Pureed fruit, fruit juices, ice cream, yogurt or sorbet.
2. Fill each mold with your favorite recipe, or mix it up and use different recipes for each pop. Leave about 1/2" (12 mm) of space at the top, your pop will expand as it freezes.
3. Put the molds into the decorative base and pop them into the freezer and try to keep your hands off them for about 4 hours (or until they are frozen enough to eat).
4. Remove each pop by gently squeezing the sides as you twist the stick, if you can't get the pop to budge run it under warm water for about 5 seconds and then try again.
